NOTES: Plans are subject to change and must be confirmed before any action is taken from the client's end. All amounts mentioned are exclusive of GST and other applicable taxes, which will be added at actual billing. Where a "+" appears alongside an amount, charges start from that specified figure, based on the client's actual requirement. We work with Zoho — the Zoho software subscription itself is not included and must be purchased separately by the client; only our service charges are listed above. Apart, the pricing mentioned is only for Indian clients. Foreign clients can get in touch with us for pricing separately.

Not sure which plan fits your business?

Talk to our team — we'll recommend the right plan based on your transaction volume and compliance needs.
